AAC 2022

The 12th Asian Aerosol Conference

WELCOME MESSAGE

On behalf of the organizing committee, I am honored to welcome you to Taipei, Taiwan for the 12th Asian Aerosol Conference (AAC), to be held from January 16-20, 2022. Taipei is a modern and dynamic cosmopolitan metropolis; from the world's tallest building (2004-2010) to the biggest collection of Chinese art, Taipei invites you to experience fascinating contrasts - a mix of the modern and traditional, with a generous dash of energy and friendly smiles to make this meeting your most memorable trip to Asia.

In this major biennial 4-day-event, with an ice-breaker reception on the evening of Sunday, June 20th, a wide range of interesting aerosol science and technology topics will be discussed. There will be plenary/keynote speeches and parallel platform/poster sessions as well as an exhibition area to provide opportunities to engage with leading companies offering state-of-the-art instrumentation and services in aerosol science and technology. We will also be hosting presentations for the Asian Young Aerosol Scientist Award to recognize outstanding contributions by young aerosol scientists in Asian countries, and honoring Asian Aerosol Fellow awardees for their outstanding services to the Asian Aerosol Research Assembly and significant contributions to the field of aerosol science and technology.

Asia, with more than 4.5 billion people living in 49 different nations, is the fastest growing economic region in the world. Asian aerosol scientists certainly need to do more to promote the advancement of aerosol science in the region.

With our best and collective efforts, we aim to ensure that AAC 2022 will be a productive and valuable experience for the participants. We look forward to welcoming you to Taipei in January, 2022 for the 12th Asian Aerosol Conference!

Prof. Chih-Chieh Chen

Professor, National Taiwan University, Chair, AAC 2022
